Bats: Reading Comprehension

Nonfiction: Animals · about 50 words

Read the story. Then answer the questions. Circle the best answer or write it on the line.

🦇 Bats

Bats are the only mammals that can fly. Most bats sleep in the day and come out at night. Many bats hang upside down to rest. Some bats eat bugs. Others eat fruit. Many bats make sounds and listen for echoes. This helps them find food in the dark.

1 **Main idea:** What is this mostly about?

A. bees B. birds C. bats

2 **Detail:** What are bats the only ones to do?

A. They are the only mammals that can fly. B. They are the only animals that eat.
