Clouds: Reading Comprehension

Nonfiction: Science · about 45 words

Read the story. Then answer the questions. Circle the best answer or write it on the line.

☁️ Clouds

Clouds are made of tiny drops of water or bits of ice. They float in the sky. Some clouds are white and puffy. Some are thin and wispy. Dark gray clouds may bring rain. When the drops get too heavy, they fall as rain or snow.

1. **Main idea:** What is this mostly about?
   A. clouds B. the ocean C. wind

2. **Detail:** What are clouds made of?
   A. cotton B. tiny drops of water or bits of ice C. smoke

3. **Detail:** What might dark gray clouds bring?
   A. rainbows only B. sunshine C. rain

4. **Detail:** What happens when the drops get too heavy?
   A. They turn green. B. They go to space. C. They fall as rain or snow.

5. **Vocabulary:** Puffy means...
   A. very small B. flat and hard C. soft and round
