🚒 Firefighter Day

Firefighters keep our communities safe. When an alarm rings at the fire station, they quickly put on their gear. Their heavy coats, pants, boots, and helmets protect them from heat and fire. Some carry air tanks so they can breathe in smoke.

Firefighters do more than put out fires. They help people in car crashes, rescue animals, and teach kids about fire safety. They tell us to have smoke alarms at home and to practice a family escape plan. If your clothes ever catch fire, remember to stop, drop, and roll.
