The Statue of Liberty Story: Comprehension

Nonfiction: History · about 140 words

Read the passage. Then answer each question. Circle the best answer or write your answer on the lines.

The Statue of Liberty Story

The Statue of Liberty is one of the most famous symbols of the United States. It was a gift from the people of France to celebrate the friendship between the two countries. A French sculptor named Frédéric Auguste Bartholdi designed it. Gustave Eiffel, the engineer who later built the Eiffel Tower, designed the iron frame inside.

The statue was built in France and then taken apart into about 350 pieces. The pieces were packed into more than 200 crates and shipped across the Atlantic Ocean. Workers put it back together on an island in New York Harbor. It was dedicated in 1886.

Lady Liberty holds a torch in her right hand and a tablet in her left. The tablet shows the date July 4, 1776. For millions of immigrants arriving by ship, the statue was their first sight of America.

1. **Main idea:** What is this passage mostly about?

   A. how to build a tower B. the history of the Statue of Liberty C. life in France D. sailing across the ocean

2. **Detail:** Who designed the statue?

   A. George Washington B. Thomas Edison C. Frédéric Auguste Bartholdi D. Abraham Lincoln

3. **Detail:** What did Gustave Eiffel design?

   A. the iron frame inside the statue B. the torch C. the crates D. the island
