ANSWER KEY

Bug Hunt: Learn and Practice (answers)

Meet insects and other small creatures

Read each question. Circle the best answer.

1 🌸 How do bees help flowers?

A. They carry pollen between flowers

B. They pick the petals

C. They water them

As bees visit flowers, they move pollen around, which helps plants make seeds and fruit.

2 🐜 How many legs does an insect have?

A. 2 B. 8 **C. 6**

Every insect has 6 legs. Count them on an ant or a ladybug!

3 🦋 Which insect has big colorful wings?

A. A flea **B. A butterfly** C. An ant

Butterflies have large wings in many bright colors and patterns.

4 🕷️ A spider has 8 legs. Is it an insect?

A. Yes, because it is small

B. No, insects have 6 legs

C. Yes, all bugs are insects

Insects have 6 legs. A spider has 8, so it belongs to a different group.

5 🐜 Where do many ants live?

A. In a bird cage

B. In a nest in the ground

C. In a fish tank

Many ants live together in nests under the ground, with lots of tunnels.

6 🐝 Which insect makes honey?

A. A fly **B. A honeybee** C. An ant

Honeybees turn flower nectar into honey and store it in their hive.

7 🐜 What do antennae help an insect do?

A. Grow fur B. Swim fast

C. Smell and feel things

Antennae are like feelers. Insects use them to smell and touch the world around them.

8 🐞 Which one is an insect?

A. A fish B. A cat **C. A ladybug**

A ladybug has 6 legs, wings and 3 body parts, so it is an insect.
