ANSWER KEY

Storm Safety: Learn and Practice (answers)

How do we stay safe in big weather?

Read each question. Circle the best answer.

1 ⛈️ When you hear thunder, where should you go?

A. Inside a building B. Into the pool

C. Under a tall tree

If you can hear thunder, lightning could be near. Going inside a building keeps you safe.

2 👂 Who should you listen to during a storm?

A. A grown up you trust B. A squirrel

C. Nobody at all

A grown up you trust knows how to keep you safe, so listen carefully.

3 ⚠️ Why should you stay away from fallen power lines?

A. They are fun to touch

B. They are sticky

C. They can be very dangerous

Fallen power lines can still carry electricity, which is very dangerous. Tell a grown up right away.

4 🔦 The power goes out in a storm. What is a safe light to use?

A. A flashlight B. Matches

C. A candle left all alone

A flashlight gives light without any fire, so it is the safest choice.

5 ⚡ What comes with thunder in a storm?

A. Rainbows only **B. Lightning**

C. Snowmen

Lightning makes the loud sound we call thunder.

6 🧤 What should you wear outside in a cold snowstorm?

A. A swimsuit

B. Warm coat, hat and mittens

C. Shorts and sandals

Warm clothes protect your body from the cold, wind and snow.

7 🌳 Why is a tall tree NOT a safe place in a thunderstorm?

A. Trees are too wet

B. Trees are too cold

C. Lightning can strike tall things

Lightning often hits tall things, like trees, so stay away from them in a storm.

8 📻 How can we find out a storm is coming?

A. A toy B. A cereal box

C. The weather report

Weather reports tell us when storms are coming so we can get ready.
